OBJECTIVE

Dedicated and motivated Public Health Professional seeking a position that leverages a diverse skillset and a strong work ethic within a constructive environment for growth. Through internships, community involvement, and my education I have learned excellent leadership, research, and organization skills that enable me to be an efficient and independent asset to any organization or company.

EDUCATION

Master of Public Health / University of Georgia / May of 2021

- College of Public Health Department of Policy and Management

GPA: 4.0

B.S. in Psychology / University of Georgia / May of 2019

- Franklin College of Arts and Sciences

GPA: 3.3

EXPERIENCE

The Lakes Treatment Center / Administrative Assistant / February 2021 – May 2021

- Gained valuable experience utilizing data to analyze facility trends and patient outcomes. I performed medication, incident, and operational audits, completed quality assurance and operational reports, and updated staff training materials, including clinical policies and procedures related to Care, Treatment, and Service standards.

Project Safe, inc. / Administrative Intern / May 2020 – December 2020

- Worked closely with organization leadership and gained valuable experience in non-profit management and advocacy. Prepared social media analytic reports and a brand style guide to improve Project Safe's online brand presence in preparation of the launch of a virtual monthly donor campaign. Gained valuable strategic planning skills assisting with COVID-19 safety policy initiatives for staff, volunteers, and interns. Assisted in the Athens Clarke County Fatality Review by preparing literature reviews on policy recommendations, analyzing the incident history of closed fatality cases, and developing administrative documents for community meetings.

UGA Policy and Management Department / Research Assistant / Spring 2020 – December 2020

- Assisted on a variety of research projects related to physical activity policy. Compiled information from journals, research papers, and primary sources to support research efforts. Gained valuable experience in qualitative data analysis and translating complex information into clear and concise documentation
- Directly assisted in research on state physical activity policy, Georgia SHAPE. This mixed methods qualitative study focused on the barriers and facilitators to implementing state physical activity policy at the district level. In excel, a team member and I inductively coded data from key informant interviews and compared and discussed codes during regular meetings until an inter coder reliability above 95% was calculated.

UGA Epidemiology and Biostatistics Department / Research Assistant / Spring 2020 – Summer 2020

- Participant in the student Sexual and Reproductive Health Services lab group. Duties included assisting in data collection and entry for content analysis of crisis pregnancy center websites.

The Lakes Treatment Center / Administrative Assistant / May 2018 – August 2018

- Worked with company leadership to assist with administrative, clinical, and other critical tasks and duties. Duties include review and audit of electronic health records, completing audits of operational processes, and directly assisting the Compliance Director to maintain compliance with the Joint Commission Behavioral Health and Human Services standards.

COMMUNITY INVOLVEMENT

Public Health Association / President / January 2020 – December 2021

- Public Health Association is a graduate student organization for academic and community involvement. Prepared meeting agendas, minutes, and document action items for our executive board and general body meetings. To maintain engagement during virtual learning and to promote being a strong public health advocate, I led the development of a virtual panel series that focused on university faculty's developing COVID-19 research. I moderated all 6 panels and gained valuable project management and public speaking skills.
